FEEL LIKE GIVING UP?

Many Norway People On the Verge of Collapse.

A bad back makes you miserable all the time—

Lame every morning; sore all day.

It hurts to stoop—it hurts to straighten.

What with headache, dizzy spells, urinary weakness.

No wonder people are discouraged.

Who do not know the kidneys may be the cause of it all.

Give the weakened kidneys needful help.

Use a tested and proven kidney remedy.

None endorsed like Doan's Kidney Pills.

Mrs. Myrtle Payne, Norway, says:

"A few years ago I was having pains across my back and kidneys. This annoyed me very much and on stooping or lifting, I felt the pains more. I found Doan's Kidney Pills were fine for this trouble. As I used them, the pains gradually lessened and soon I was practically free from the trouble. I feel that Doan's Kidney Pills are entirely worthy of my recommendation."

Norway High School Graduation

(Continued from page 1)

their duties by Principal Hathaway; the election of officers; the joyful evening at the home of John Anderson; a picture of the teaching force included, Mr. Hathaway, Florence Rideout, Edith Knight, Marion Lougee, and Halliburton Quandle; then the merging into a grand finale, and the advice of Albert C. Parker, as sub-master, in place of Mr. Crammire; and mingle with school work, a gathering at the home of Bradley Willis, with a feast and a merry making; then the going away of Theodore Hunt and Milo McAllister, who volunteered as an answer to the call of their country.

The Junior year, and the members taking part in their Junior play, "The Daughters of the Desert"; the sad death of Gertrude Dunn, one of the dearest and most beloved girls in the class; and with still shadow over the class, when Florence Rideout resigned from teaching on account of failing health; next came the advent of Marion Lougee to fill this vacancy; and after more weeks, the resolute death of Carroll Barker; the principal for sixteen years, but responded to the call of the colors, which necessitated a change in the teaching force.

Then Hazen Newers, principal, Ruth E. Brown, Mrs. Leonard Parker, Edith Knight, Mrs. Ruth Skillings, and Maurice Fletcher made up the new faculty.

During the last year, the class enjoyed a box supper at the Mothers' Club House at Norway Lake, and their final merry-making at the home of Marion Sanborn, making at the home of Marion Sanborn, the Senior Drama, "The Adventures of Grandpa," came next, repeated at Harrison with equal success brought to a close the eventful career in high school life.

Red Cross—Marcia Ellen Grover. The hour of war was the idea which started the Red Cross. This organization soon expended and included the sufferers from earthquakes, pestilence, conflagrations and other catastrophes. The beginning was small, but the development rapid and today the Red Cross is the largest and most efficient organization in the world. Unscrupulous persons used the good offices of this society in its early days to advance their interests and gain not deserved, but today that act is impossible. In all civilized countries the emblem is respected, the workers and equipment protected with every opportunity given for their humanitarian efforts.

Education—Eloise M. Hunt. Written and spoken English is the foundation for an education. Its many divisions include ethics; economics, which is occupational; and civics, dealing with civil government and politics, or the governing of individuals and nations. Vocational schools should hold the high place as they fit for life work. An ideal is necessary for knowledge. Nations in the part have decayed because they followed the wrong ideal. America at the beginning of the war was weighed in all the balances and found wanting, her inferiority was discovered because the nation had been given to pleasure and gain and were lacking the fine points and spiritual efficiency.

Immigration—Edward J. Scribner. The speaker traced the wanderings of ancient tribes and clans through medieval times; the thirst for penetrating the unknown resulting in the discovery of America, and the "religious" immigrants who came to our New England shores and commenced a new life and a new era.

Mr. Scribner reviewed the conditions over here which are ideal for a desirable class to become citizens in the best sense. The "melting pot" question is, troublesome and master-minds must solve a short-term. "How to abolish congestion in the large cities." Controlling the elders and educating the young are serious matters bearing directly on America's future. Comparatively few arrivals are engaging in agriculture yet the opportunity in this field is large and the demand for products great. Properly arranged farming communities peopled by these from foreign shores would relieve congestion and go far toward building up a strong nation.

The class prophetess, Marjorie H. Sanborn, told how a letter came to her from Madame Future, addressed to "The Prophetess of the Class of 1919," explaining that in all these years she had been watching and waiting for this opportunity to give the real future of her classmates. As their future was foretold each was presented an appropriate gift.

To Mildred Durell was given a pail and milking stool as she will be the first one in the class to marry, the fortunate man to be a farmer residing on the other side of Pike's Hill.

Carol Barker will be a long time deciding on what course to pursue

NORWAY AND VICINITY

HARKEN BACK ON THE PAST

Twenty-four Years ago this Week.
It is claimed that William Mark Brooks of Norway has taught more schools than any other man in Maine. He has taught 114.

Instead of the teams and horses keeping off Main street there seems to be more than usual. Everyone who has a horse wants to get him used to the cars, and it is one of the great attractions of the village to drive the horses around the cars.

It is a noticeable fact that the horses at out of the village are not as frightened as the village horses. The motorists have had orders to stop the cars when they see a frightened horse.

There seems to be about the usual number of teams hitched along the streets. George A. Borneman is to close his laundry in the rear of the Beal's House. He moved out last Monday.

The first person to pay a fare to the N. and P. Electric railroad was Uncle Jonathan Whitehouse, who has been Sexton at the Norway Pine Grove Cemetery for so many years. Mr. Whitehouse is in his 83rd year.

On the car also, Ansel Dismore, who will be 80 come September, who lives a few miles out of the village, was present to go on the first car. He rode on the first train of steam cars in this State between Bangor and Oldtown.

M. W. Sampson of Norway and F. A. Taylor of South Paris will be the conductors with John D. Cole of this town and C. P. Penley of South Paris as motormen.

Norway Public Library moved Monday to quarters over the James O. Crooker store.

George A. Bowker is time keeper for the crew excavating for the new county buildings.

The corner stone at the county buildings was laid with Masonic rites, Tuesday, July 2, Oxford Lodge F. and A. M. were in charge, assisted by seven Grand officers. On the stroke of 12 the metal box was lowered and the stone put in place.

Among other articles the box contained Supreme Judicial calendar 1895-96; an official register of Oxford Co. 1895-96 with court directory and officers; copies of Norway advertiser and Oxford Democrat, Daily Eastern Argus, Ulster Gazette; a collection of U. S. coins 1895. A monster parade with bands and a banquet concluding with speeches by prominent men closed the exercises.

The new electric car line collected more than 2000 fares during the corner ceremonies.

The Bickers at Poland Spring held a centennial of the family settlement and a second dedication of the State of Maine Building which they removed from the World's Fair at Chicago and recently placed in position near their buildings. Col. C. S. Edwards of Bethel one of the Fair Commissioners attended.

More than 500 guests were dined.

Wm. J. Wheeler is conducting his insurance business in Judge Ralph Merrill's house until changes can be made in the building recently moved near the Baptist church.

Chester Holmes of Pittsburg, Pa., has been the guest for a few days of his aunt, Mrs. Elizabeth F. Swett, and his grandfather, Jonathan Holmes, coming to Norway after attending Harvard Commencement, where he graduated.

Mrs. and Mrs. Stephen O. Jellerson were called to Newtonville, Mass., because of the critical illness of Mr. Jellerson's mother, who has suffered a shock.

Cathleen McIntire is home with her parents, Mr. and Mrs. B. G. McIntire for the summer vacation. She has completed her junior year at Bridgton Academy.

A Disgrace to Greenwood.
People traveling over the road from Bryant Pond to West Paris over the hills are saying things about the section of the road in Greenwood from the Woodstock line to the railroad crossing.

Although it is now the first of July, nothing what ever has been done to repair the road and it remains just as it came out in the spring with its rocks and holes and we understand the authorities give no promise whatever that any work will be done on the road this year.

The Woodstock section of the road from the village to the Greenwood line was put in fair condition by the middle of May and it is far from the square thing to leave a half mile of highway in such condition. It is a road over which considerable travel passes every day and with due allowance for scarcity of help and other troubles, it seems as if it was up to the town of Greenwood to make the road at least safe as soon as possible.

Build Now

The general opinion of those qualified to judge is that all building material will be higher instead of lower, and we believe this ourselves. At this time we have a complete stock of all kinds of building material; but most impossible to get shipments from the mills and in our opinion the situation in this respect will not improve, so we say BUILD NOW.

Thin People Should Take Phosphate

Says nothing like plain Argo-Phosphate
to put on firm, solid, stay there
flesh and muscle and increase
strength, vim, vigor and
nerve force

Persons claim there is nothing that
increases weight, strength and endurance
like argo-phosphate commonly known by
the name of argo-phosphate. It is inexpensive
and sold by all leading druggists everywhere.
It is a guarantee to give satisfaction or money
refunded. Weakness and thinness are caused
by an increased loss of weight is often times
quickly produced.

The argo-phosphate weight also aids in impro-
ving the general health. Sleeplessness, nervous-
ness, lack of energy and ambition quickly
disappear.

The argo-phosphate is changed to rosy ones
and dull eyes become bright.

Miss Anna Brown of Atlanta, Ga., who
weighed 90 pounds reports that she gained
10 pounds in two weeks time and says argo-
phosphate has made a different person of her
and she "never felt better in her life."

SECK. NOTICE—Owing to the fact
that so many physicians and druggists
are recommending argo-phosphate for relief
of nervous, worn-out debilitated conditions
and the unusually large sale for argo-phosphate
there will be found in the market numerous
substitutes for the genuine article. A true
substitution is inferior preparation and owing
to the unusual flesh producing qualities, it should
not be used by any one unless they desire
put on flesh and increase in weight.

HOW THIS NERVOUS WOMAN GOT WELL

Told by Herself. Her Sincerity Should Convince Others.

Christopher, Ill.—"For four years I suffered from irregularities, weakness, nervousness, and was in a run down condition. Two of our best doctors failed to do me any good. I heard so much about what Lydia E. Pinkham's Vegetable Compound had done for others, I tried it and was cured. I am no longer nervous, am regular, and in excellent health. I believe the Compound will cure any female trouble."—Mrs. ALICE HELLER, Christopher, Ill.

Nervousness is often a symptom of weakness or some functional derangement, which may be overcome by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, as thousands of women have found by experience.

If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for suggestions in regard to your ailment. The result of its long experience is at your service.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred. Life prolonged far beyond that enjoyed by the average person. Over 200 years GOLD MEDAL Haarlem Oil has been relieving the troubles and disability due to old age. It is a standard old home remedy and needs no introduction. GOLD MEDAL Haarlem Oil is made in odorless, tasteless capsules, containing about 5 drops each. Take as you would a pill, with a small swallow of water. The oil stimulates the kidney action and enables the organs to throw off the poisons which cause premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haarlem Oil Capsules will keep you in health and vigor and prevent a return of the disease. Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haarlem Oil Capsules. Money refunded if they do not help you. Three sizes. But remember to ask for the original imported GOLD MEDAL brand.
